REPORT OF THE SUPERINTENDENT OF SCHOOLS TO THE GREENFIELD SCHOOL BOARD

Few towns are more fortunate in having teachers who, by training and natural ability, care for the best development of the pupils in a well rounded program of activities. The work done by Miss Batten and Mr. Fenerty makes use of the interests of the children in developing not only scholastic ability but an excellent sense of civic duty. Within your school house there are two groups of children who are receiving such education as many parents in city school systems urgently desire for their own children. The splendid example of cooperation and genuine interest shown by these two teachers cannot fail to inspire the children; and deserves and receives the appreciation of the town.

It would well repay any citizen of Greenfield to spend an entire day in the schools, so that he could appreciate the spirit of the school, and observe the wide range of activities which continually makes full use of the normal desire of children to use their time in worthwhile activities.

This school is operating under such low per-pupil costs, yet with such excellent results, as must certainly give great satisfaction to parents and to the School Board.

It is of particular interest that high praise has been frequently given to the preparation given the students who enter nearby high schools. These words of praise have previously been made known to you and here require no elaboration.

The leadership of the School Board, its eagerness to maintain conditions such as offer modern education comparable to the best school systems, yet within a sharply restricted budget, are factors working cooperatively with the teaching staff to maintain and advance annually the standards in your schools.

(Signed) LAWTON CHASE
Superintendent of Schools

February 13, 1934
